## **DETAILED ACTION**

### ***Election/Restrictions***

1. Newly claims 44, 46-51 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The limitation "forming directly on the first conductor structure a bottom electrode layer to have a surface having a series of grooves" is described in Fig.4 which is not in elected Embodiment.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 44 and 46-51 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
